PROFESSIONAL SUMMARY

Results-driven Front-End Developer with 4+ years of experience building fast, accessible, and visually precise web interfaces. Proficient in React, TypeScript, JavaScript, Tailwind CSS, and Bootstrap. Experienced in translating Figma designs into pixel-accurate, responsive components, optimizing load performance, and ensuring cross-browser stability. Proven ability to collaborate with designers and backend engineers in fast-moving, remote-friendly environments. Passionate about clean code, great UX, and shipping products that make a real difference.

WORK EXPERIENCE

Front-End Developer Intern | Codveda Technology

2026

- Built interactive, responsive UI components using HTML, CSS, JavaScript, and React, delivering functional interfaces beyond static layouts.
- Collaborated with senior developers on real client projects, contributing to feature development and UI improvements.
- Assisted in debugging and optimizing existing frontend codebases for improved performance and cross-browser compatibility.

Front-End Developer | Marusoft Technology Limited

Jan 2025 – Present

- Built and maintained responsive landing pages and web interfaces using React, HTML, CSS, and JavaScript, improving cross-device compatibility.
- Collaborated directly with UI/UX designers to implement pixel-accurate components from Figma mockups, reducing revision cycles.
- Conducted browser and device testing to identify and resolve layout and functionality issues, ensuring consistent user experience.
- Contributed to component library maintenance and code review processes to uphold code quality standards.

Front-End Developer Intern | Trueminds Innovation Limited

2025

- Developed dynamic, interactive web applications using HTML, CSS, JavaScript, React, Next.js, and TailwindCSS for client-facing projects.
- Contributed to building production-grade interfaces with a focus on responsiveness, performance, and clean component architecture.
- Gained hands-on experience with modern frontend tooling and agile development workflows in a collaborative team environment.

PROJECTS

FinFlow — React, JavaScript, CSS, Vercel

2026

Live Project: <https://finflow-two-rho.vercel.app/>

- Built a personal finance management application for tracking transactions, managing budgets, monitoring savings goals, and visualizing financial activity.
- Developed a responsive, data-rich dashboard with interactive UI components focused on usability, accessibility, and clear financial insights.

DevBridge — React, JavaScript, CSS Modules, REST APIs

2026

Live Project: <https://dev-bridge-weld.vercel.app/>

- Built a developer networking and portfolio platform designed to help developers showcase skills, projects, GitHub work, and professional profiles.

- Implemented responsive project discovery, profile-focused interfaces, reusable components, and modern navigation for a scalable frontend experience.

FoodBridge — React, JavaScript, CSS Modules

2026

Live Project: <https://food-bridge-snowy.vercel.app/>

- Built a food rescue platform connecting food donors with organizations and individuals who can benefit from surplus food.
- Designed responsive interfaces for discovering food listings, viewing availability, and supporting a clear accessible user journey.

Chucks Kitchen — React, JavaScript, Responsive Web Design

2025

Live Project: <https://ckucks-kitchen.vercel.app/>

- Designed and developed a responsive restaurant website to showcase menu offerings, brand information, and customer-facing content.
- Focused on clean visual hierarchy, mobile responsiveness, intuitive navigation, and conversion-oriented user experience.

Nocturne — React, JavaScript, CSS, Vercel

2026

Live Project: <https://nocturne-kohl.vercel.app/>

- Built a modern, visually focused web experience with responsive layouts, reusable frontend components, and interactive sections.
- Implemented polished UI interactions and responsive behavior to deliver a consistent experience across desktop, tablet, and mobile devices.

GitHub Explorer — React, GitHub REST API, CSS Modules

2026

Live Project: <https://github-explorer-gamma-two.vercel.app/>

- Built a GitHub user search application with live REST API integration, debounced search, dynamic filtering, sorting, and user data retrieval.
- Created a responsive terminal-inspired interface with reusable components and clear presentation of GitHub profile and repository information.

EDUCATION

B.Sc. Computer Science | Lagos State University

Oct 2026 – Present

SKILLS

Languages:

JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries:

React.js, Next.js, Tailwind CSS, Bootstrap

Tools & Platforms:

Git, GitHub, Vite, Figma, VS Code

Deployment:

Vercel, Netlify, GitHub Pages

Other:

Responsive Design, Cross-Browser Testing, REST APIs, Agile/Scrum

ADDITIONAL

- Tech Learners Community — running an active learning community for beginner developers in Lagos, covering frontend fundamentals, project building, and career guidance.
- Preparing to teach Frontend Development at tech schools.
- Active developer brand on LinkedIn — creating content on frontend development, career growth, and tech life.
